#### **Nesting of the Ground Dove.**

Mr. W. J. Dickinson of Tarpon Springs, Fla., writes: "I found three sets of Ground Dove, Oct. 19th, and one on the 22d of the same month. Davie speaks of that date as being unusual. I have come to the conclusion that they breed about that time." We should be very glad to receive original observations similar to this from every member in the Chapter. Now that another season has begun, it is hoped every one will have some item to contribute.
